The Ksix Compass is your perfect adventure buddy thanks to its built-in GPS. With built-in microphone and speaker, making and receiving hands-free calls has never been so convenient. Receive and manage notifications from your favorite apps and use voice commands thanks to its Alexa compatibility. Monitor your health 24 hours a day and your physical and sports activity. All this with an incredible autonomy of up to 7 days. Thanks to its 2 ATM, it is submersible up to 2 meters deep.
