EAN13: 8427542133812

The SmartLED RGB TV Strip transforms your moments in front of the screen into an experience full of colour and emotion. At 2 metres long, it fits perfectly on the back of any monitor or TV up to 70". You can easily control the lighting via the Tuya Smart and Smart Life apps or with the remote control, without the need for a connection. Its 480 lumens offer a wide range of RGB colour options, allowing you to play with the lighting and create fully immersive environments in front of the screen.
