

SmartLED Halo panel

SKU BXPLAFLED02 | EAN 8427542130613

Light that embraces any space

The Ø47 cm SmartLED Halo panel has been designed for any room in the house. Its RGBIC lighting is able to play with millions of colours at the same time creating unique atmospheres. It also offers CCT white lighting to adapt the light to any time of the day. Very easy to control through the iLink app: it allows to program schedules, try different scene modes and choose the ideal light for any moment, and much more. Includes remote control for offline use (no connection needed).
